- NB:**
- Required basin support bracket for installation on wall included
  - The basins have a tolerance of +1/1 mm; we recommend that all basins are ordered 5 mm wider than the furniture setting (e.g. 1605 mm total width to suit 2 x 800 mm units).
  - If the basin is placed on a vanity unit, the centre of the basin must be aligned with the centre of the vanity unit.
  - For wall-to-wall solutions we recommend 3 mm space on both sides between worktop and wall. Take care to note the diagonal measurement between the walls.
  - Bespoke products cannot be cancelled or returned after the signed order form is received.
  - Please be aware that the warranty no longer applies if modifications to the construction and/or the design are carried out.
